- Detects and measures the luminous intensity of light.
- Ideal for monitoring unmanned closets, telecom rooms, remote data rooms, or other low traffic facilities.
- Applications from 0 to 100,000 lux.
- Human eye response (540 nm peak sensitivity).
- IR and UV rejection
- RJ45 connector.
- Supports CAT5/5e/6 cable up to 1,000 ft. (305 m).
- Powered by E-2D/5D/16D.
- Regulatory approvals: CE, RoHS
- Compatible with E-2D/5D/16D.
- Compatible with E-FSC Fiber Converter/Extender.
  - Use to extend sensor up to 1.2 miles (2 km) from the ENVIROMUX unit.
